

## Catalyst Science Kits

### Parents and guardians!

You might not think you are very knowledgeable about science, but you'd be really surprised! STEM is all around us and embedded in so many everyday activities from cooking, to playing, bath time and technology. Our mission is to inspire young children and widen participation with everyday science discovery. With the help of these science kits, we are supporting primary caregivers in young children's lives to identify and explore STEM learning opportunities in the home, and in turn, hope to enthuse a life-long interest in science.

Would you like to grow your science know-how to better support your children's learning at home? Would you appreciate a box containing all the items you need to try science and engineering challenges with your family?

In return for sharing your experience with us, we are offering easy science kits that you can keep. If you live within a 3 mile radius of Catalyst Science Discovery Centre and have children under the age of 8 please fill in our application form on the next page.

There are a limited number of kits so apply today!

Send your completed application form to [lucinda@catalyst.org.uk](mailto:lucinda@catalyst.org.uk) and if successful your kit will be delivered direct to your door by Catalyst staff.

Mersey Road, Widnes, Cheshire WA8 0DF  
 Telephone 0151 420 1121 [www.catalyst.org.uk](http://www.catalyst.org.uk)

## #CatalystKit Application Form

Name of Parent or Guardian		
Address including postcode		
Number of children	Girls	Boys
Ages of children		
Have you visited Catalyst Science Discovery Centre before? You don't have to be a visitor to receive a #CatalystKit		
Does anyone you know have a science job?		
Have you tried science experiments at home with your children before?		
We would like people using these kits to share their results via email or social media. If you share your results there may be a possibility you can receive a second box.		
Which social media platforms do you use?		

Please save this form to your machine, complete it and then return to [Lucinda@catalyst.org.uk](mailto:Lucinda@catalyst.org.uk)

If successful, please upload your results to our social media channels either:

Facebook [www.facebook.com/CatalystScienceDiscoveryCentre](http://www.facebook.com/CatalystScienceDiscoveryCentre)

or Twitter [@CatalystSDC](https://twitter.com/CatalystSDC)
